

MULTI SPLIT

ARIA wall-mounted air conditioners

TEMPERATURE SETPOINT from 16 to 30°C

Ioniser

The ioniser improves air quality in the room. Electrical equipment generates positive ions, also referred to as electrosmog, that attract dust and viruses. Negative ions are generated by the ioniser neutralise the charge of positive ions by causing the contaminants to fall on the floor, while reducing the risk of allergy and various infections. The ioniser also helps neutralising the odours in the room.

Wi-Fi control

The Wi-Fi control in standard enables controlling the air conditioner with your smartphone connected to the Internet from any place. The comfortable and intuitive Wi-Fi INTELLIGENT AIR app enables access to all basic settings of the air conditioner.

High energy efficiency

Innovative solutions enabled a significant reduction of energy consumption in both cooling and heating mode. The appliances have A+++/A++ energy rating.

SMART airflow

An innovative solution for airflow control. The stream is directed upwards during the cooling and downwards during the heating, which enables an even distribution of air, thus preventing direct airflow on the user.

Airflow speed control

The option to control airflow shutters vertically and horizontally enables precise direction of the airflow. The up-down and left-right control functions are available from the wireless controller and the Wi-Fi Intelligent Air app.
